Scrap Iron And Steel are Vitrally Needed

Scrap iron is the basic raw material for steel. Steel is needed to make tractors, plows, planters, cultivators, and combines. The production of these and all other metal products of industry has been slowed down by the great shortage of scrap iron. Farmers are urged to search their farm NOW for scrap iron. More iron means more farming equipment.

Grazing crops are the cheapest feeds that farmers can buy. Several different kinds of crops are needed to have a year-round grazing program. Farmers who plan

on seeding alfalfa in 1947 for grazing are urged to buy the seed now. If they can be found. Blue lupine should be sown on the seed patch to be planted to alfalfa in 1947. See Russell Speed, County Agent, for information.

Farmers Plan Use For 1947 Program

With more local control given in next year's conservation (PMA) program, farmers through their community committees will be able to choose soil-building practices that best meet local needs. The State Agricultural Conservation Committee has listed 15 practices for which payments will be made

HARTFORD SWAMPS ELBA TIGERS HERE LAST THURSDAY. SCORE 35-6

The Clipper, along with nearly all weekly and daily papers of the nation are facing what may become a very dangerous shortage in newsprint paper. In fact there is a crisis already. Paper supply houses have already sold their quota for 1946 and do not have any contracts for the new year.

Canadian manufacturers will not make new contracts at present ceiling prices and are selling their paper in the foreign markets. This simply means that we may face a paper shortage around the first of the year, in which event we would be forced to refuse any new subscriptions and maybe some drastic curtailment measures. If you want to be sure to get The Clipper during next year, the safest way is to renew your paper as soon as it expires. If you let it stop, we might not be able to accept any new subscribers.

ONE STALK OF PEPPER CONTAINS 620 PODS

Hub Strickland, Elba Rt. 1 farmer, is a champion pepper grower judging by a stalk brought to town last week by Ed Kendrick. There was so much difference in guessing about the number of pods on the stalk, Mr. Kendrick's little daughter sat down and counted them, and found 620 after a number had been cut or pulled off. And that's a lot of pepper.

ORDER OF PUBLICATION

F. H. Rainer, Complainant, vs. Dick Stephenson, et al., Respondents. In the Circuit Court of Coffee County, Alabama, in Equity, Elba Division.

To Eva Stephenson, a non-resident of the State of Alabama, who is reported to live in the State of South Carolina, but whose proper post office address is unknown; and to Walter Stephenson, a non-resident of the State of Alabama, who is reported to live in the State of Louisiana, but whose proper post office address is unknown; (the above persons being heirs at law and next of kin of Mrs. Lulu Stephenson, deceased).

And to the unknown heirs at law and next of kin, by adoption, of Mrs. Lucinda Brown, deceased, late a resident of the State of Texas.

That notice that is pending in the Circuit Court of Coffee County, Alabama, in Equity, Elba Division, a full and complete bill of complaint filed by F. H. Rainer, as complainant, against the respondents, et al., to the property described below, and to clear up all doubts or questions concerning the same, after the following described respects, to-wit:

One house and lot in the Town of Elba, Alabama, described as follows: Commencing at the corner of Davis and Addison Streets, running East to the lot of M. S. Carmichael; running thence South along the West line of the said Carmichael lot to the lot of O. A. Ellis, a distance of 100 feet; thence West to the lot of M. S. Carmichael; running thence North along the East side of Addison Street to point of beginning; being the house and lot as it is now located and being bounded on the North by Davis Street; East by lot of M. S. Carmichael; South by lot of O. A. Ellis and West by Addison Street.

That said bill of complaint you and each of you are made parties respondent.

In said bill of complaint, the complainant claims title to the property, which said title stands in his name on the records of the probate court of Coffee County, Alabama, by means of conveyances as follows:

(a) Deed to one-half undivided interest therein executed by the heirs at law and next of kin of F. P. Rainer, deceased, to the complainant.

(b) Deed to one-seventh undivided interest in said remaining one-half undivided interest therein executed by the heirs at law and next of kin of F. P. Rainer, deceased, to the complainant.

(c) Deed to one-seventh undivided interest in said remaining one-half undivided interest therein executed by the heirs at law and next of kin of F. P. Rainer, deceased, to the complainant.

(d) Deed to one-seventh undivided interest in said remaining one-half undivided interest therein executed by the heirs at law and next of kin of F. P. Rainer, deceased, to the complainant.

(e) The remaining undivided two-sevenths interest, in and to said remaining undivided one-half interest, he acquired title thereto (1) by means of tax sale at which said property was sold for all delinquent taxes on to-wit, 11 October 1941, and bid in by one Roy Devine of Elba, Alabama; and said property was subsequently redeemed from tax sale by one Lamar S. Rainer, of Elba, Alabama, on to-wit, 27 April 1943. And that said Lamar S. Rainer subsequently executed to complainant his deed to said interest as so required by tax sale; (2) or, in the alternative, that the City of Elba, Alabama, a municipal corporation, levied paving assessment against said property in the sum of to-wit, \$2009.32, on to-wit, the 11th day of October 1937, which said paving assessment was duly and legally transferred and assigned to J. J. Couch, the contractor, who contracted said paving; and said duty and legally transferred and assigned to said J. J. Couch by the complainant. And that said two-sevenths undivided interest in and to said remaining one-half undivided interest therein, said property, that complainant has a good and valid lien thereon for pro tanto portion of said paving assessment, with legal interest thereon to date of trial, which he seeks to foreclose.

(h) That co-complainant, and Mrs. A. E. Solie and F. P. Rainer (both now deceased) as joint owners—said named decedents being complainant's predecessors in title, have been in possession of said property for more than ten years next prior to the filing of this bill of complaint.

That copy of this notice, duly certified by the undersigned Register, has been recorded as a lien pendens in the office of probate

Big Increase in Orders For Lupine and Peas

W. F. Baker, Secretary of PMA says purchase orders for 711,900 pounds of blue lupine and 168,400 pounds of Austrian winter peas were issued through the County PMA office. This is more

than 100 per cent increase over the amount planted in the county last year. Your local community committee-men were largely responsible for this increase.

Plans are now being made for the election of County and Community Committee-men to serve during the year 1947. This is a very important feature of your PMA program. You should give this your most careful consideration and go to your community polling place on December 7, 1946, and vote for the one you feel is best qualified to serve you.

Order fruit trees now. Get one-year old plants. Spray old fruit trees for scale as soon as the leaves are off. Use a good oil emulsion.

ELBA, ALABAMA, THURSDAY, NOVEMBER 14, 1946

NUMBER 23

Gardening For November

It may sound a bit foolish to many of you, but there are crops that ought to be planted in November. You can plant beets, carrots, cabbage, endive, lettuce, mustard, radishes, onions, spinach and turnips. Cold weather might kill a few of these, but others will produce in early spring next year. Net farm income depends largely on food produced on the farm.

Thin strawberry plants and fertilize them now. Plants should be spaced 6 to 8 inches. Fertilize with 4-10-7 at the rate of 10 pounds (one gallon) per 100 foot row.
